PitchVision Web

PitchVision mobile Edition is the Mobile Phone based player-feedback system designed for Cricketers of all standards, young and old, at School, at their club, their

PitchVision Portal

PitchVision portal provides to the coaches and players into the single bridge, it will provide the features to update their

local park or sports center. Individuals can automatically capture their own (and their friend's) data as they play and receive instant feedback on their Mobile Phone. Just like PV-Coach, PV-Mobile Edition instantly presents the pace, height, deviation and trajectory of each ball including the batsman's shot and a calculated outcome (runs, fielded, or caught).

PitchVision Coach Edition

PitchVision Coach Edition is the Laptop or PC based version of the system- designed for Coaches, Schools, and Clubs or those who primarily work with groups of players. Its sophisticated report screen allows any Coach, Teacher or Player to quickly build a simple or increasingly detailed dashboard of reports, graphs, 3D replays and more - allowing them to dissect an entire squad's performance without disrupting the Session or missing a ball. It can be kept as simple or made as complex as the user desires
